

SENIOR FINAL ASSESSMENT SCHEDULE

June 7-9, 2017

Final assessments are required for all courses as we believe it is important for students to have a culminating demonstration of understanding. This includes, but is not limited to, exams, essays, papers, presentations, narratives, reflections, labs, demonstrations, etc. These assessments will be common by courses and approved by departments. *Seniors who have maintained a 90% average in each of the four quarters for year-long classes, may be exempt from a traditional final exam on the date below; however, these seniors are still responsible for any long-term culminating experiences or assessments in these courses, such as a final project or presentation.*

The grade earned on the final assessment will weigh as 5% towards the final grade for year-long courses and 10% for semester-long courses.

Juniors enrolled in a predominantly "Senior" class may, at the teacher's discretion, be required to participate in the assessment at this time, and continued enrichment after that date will be provided. Those Juniors must continue to attend class for the remainder of the school year, but do not need to attend a second final during their assessment period the following week.

This schedule is devised with an appreciation for the end-of-the-year demands on students and teachers. **OTHER ACTIVITIES MAY NOT BE SCHEDULED THAT WOULD CONFLICT WITH THESE ASSESSMENTS.**
